Forty-sixth Annual Report

Covering the period from January 1, 1920, to December 31, 1920

Russian River Relaxation

“Every boy is entitled to a fair chance to make good.”

WHAT WE ARE DOING

The Society cares for homeless, neglected, or abused children of California; receives, by legal commitment or otherwise, boys from the Juvenile Courts of this and other counties; provides for them until suitable homes or employment and oversight are found, and continues a systematic attention to their condition and treatment.

It maintains a Free Employment Bureau for Boys; Reading Rooms and Library; The Chas. R. Bishop Annex, a home for working boys; and a Summer Camp at Sebastopol, Sonoma County, for working parties.

The Board of Education conducts a Grammar School in the Society's building for the wards of the Society.

The Society is supported by voluntary contributions—*and both organization and work are absolutely non-sectarian.*

We are always in need of clothing for boys from ten to eighteen years of age; of books and magazines and supplies of all kinds.

Address all communications

BOYS AID SOCIETY,
460 Baker Street, cor. Grove,
San Francisco, California.

During the past 46 years over 14,500 boys have been cared for and a large majority have gone forth to lives of usefulness.

Ready for Kiddies' Day, given at Orpheum by the Rotarians

Forty-sixth Annual Report

PRESIDENT'S REPORT

To the Boys Aid Society—

Forty-seven years ago it was my good fortune to join with a number of friends in forming the Boys and Girls Aid Society of California. The necessity for such an organization had been made apparent by the conditions of the children of the community. A municipal reform school did not justify its name. It seemed, on the contrary, to promote vice and crime, and a boy committed to it, on graduation was more than likely to become a jail inmate than a normal citizen. There was a general cry: "What shall we do with our boys?" The "hoodlum problem," as it was termed, became very acute. Boys committed for minor offenses could not be restrained or punished save in the county jails or the state prison, and in either case they were almost sure to become criminals.

In search of methods and results elsewhere we were very favorably impressed with what was being accomplished in New York City by the Children's Aid Society, under the management of Charles Loring Brace. The main source of hope was the helping of boys on the street, homeless, neglected and friendless, to find good homes in the country. Many had been rescued and diverted from waywardness or great danger to paths that led to lives of usefulness and honor.

Boys Aid Society

After correspondence with Mr. Brace, a like society was organized in San Francisco. It was not done without overcoming many obstacles and much indifference. It seemed so doubtful of results that no one was willing to risk the stigma of failure by accepting the presidency. Finally, Mr. George C. Hickox, a sympathetic and impulsive banker, risked his reputation and developed remarkable interest. Mr. Stephen Franklin, Mr. William Bosworth, Mr. Ira P. Rankin and others formed the board of directors, and we began work, feeling our way, and called upon to fight valiantly for the means of support.

Very soon Senator George C. Perkins joined in the forlorn hope, succeeding the retiring president and serving until last year. It is unnecessary to recount our experiments and history. By the generous gifts of Senator Fair and Charles Crocker we finally established our home at Grove and Baker, and by dint of patient labor and wise management on the part of our Superintendent, accomplished much and we became respected and well supported by the community.

Very much depends upon the spirit and effectiveness of the Superintendent, and we have never been so favored in this regard as for the past fifteen years by the able and conscientious efforts of Mr. George Chase Turner. He has given his whole unselfish life to the work. He is a lover of boys, and they find in him an influence for good that is beyond value.

Forty-sixth Annual Report

The omission of the words "and Girls" from our name was made a year ago to conform to the facts. We had ceased years ago to receive girls, satisfied that they were better cared for elsewhere, and separately.

The past year has been, it would seem, the most successful in our history. The Home has been used to its capacity. The Jesse Lilienthal School maintained by the city has been of manifest advantage, and also has relieved us of burdensome expense. The state has increased the allowance for the care of committed children. We still expend much more than we receive, for we will not fix our standard of service on the sum the state is able to pay. We are organized to help boys and we will do for them all we possibly can, taking from the state, the counties or from parents, that which they can pay, and making up the deficit from the gifts of our members and friends or the interest from the legacies left us by those who died with sympathy and confidence.

The report of the Superintendent will fully advise all interested of the work of the year and of financial conditions.

Our receipts have not quite equalled those of last year. The expenses have been heavy, but by reason of the increased allowance from the state our deficit has been small and we have not been obliged to borrow money. We expect by the receipt of legacies, on the settlement of several estates, to be able soon to repay the banks for

Boy Scouts About to Hike

Forty-sixth Annual Report

money borrowed last year, but our needs for the future are many and we confidently rely on the continued liberal support of our friends.

We are especially grateful for the help we have received in strengthening the Boys Scout activities of our wards, and proud of their having carried off the honors in competition with all the companies of the city.

Our camp earnings exceed those of any past year. In round numbers they were \$11,000, of which the boys' share, paid to them, was \$7,000.

THE FUTURE

We look back with satisfaction; we look forward with hope and determination. We are gratified, but far from satisfied. We have long felt that we lacked much that we ought to supply, indeed that we must supply, if we are to meet our responsibilities.

The building we occupy is nearly forty years old, and is antiquated and inadequate. Something has been learned in that time and we need an up-to-date, modern equipment, with land for farming, where home life may be more normal, and where boys may be better fitted for the work they will enter when they leave us.

It is not a small undertaking, and we would approach it after the most careful and thorough consideration. It has been determined to dedicate this new home not later than 1924, when we will complete fifty years of life. We make this preliminary announcement that we may

Boys Aid Society

enlist the co-operation and assistance of all interested in us and the welfare of the community.

Committees have been appointed covering every feature of the undertaking. They will be glad of help at any time in any way.

The first consideration is the character of the work most necessary and desirable for the community. How can we best serve the boys and society?. We are supplementing the work of the state and municipality in caring for boys. We emphasize personal influence and express human sympathy and helpfulness. We seek to develop character and inculcate manliness. Our work is on a broad, unsectarian basis. We unite to really aid boys. The first committee considers our plan and recommends the best methods to be pursued. On this very important committee I have named TRUSTEES PORTER, MILLBERRY and MORLEY.

Secondly, the selection and acquisition of the site of the new home is to be considered by TRUSTEES SCOTT, ESBERG, GIANNINI and QUEEN.

We hope to secure the necessary acreage in or near the city. The Home itself must be in the city limits, both for accessibility and because of the public school requirements.

Thirdly, we cannot expect to accomplish this large purpose without wide publicity and education. To conduct this campaign we name TRUSTEES MOORE, KOSTER, HALE and MCCARTHY.

Forty-sixth Annual Report

Finally, a very considerable sum of money will be required, both for the plant and its maintenance. On the committee of finance are TRUSTEES MCGREGOR, WALLACE, LILIENTHAL and FREDRICKS.

To co-ordinate the work outlined and to determine when the work shall proceed, a controlling executive committee will be composed of TRUSTEES HALE and the four chairmen (PORTER, SCOTT, MOORE and MCGREGOR).

It will recommend to the entire board of trustees, from time to time, measures that promise the speedy realization of our plans for a great community beneficence.

Nothing will be undertaken hurriedly, but we would waste no time in delay. We realize it is a large undertaking. It affords an opportunity for an individual or a family to make an endowment more monumental in perpetuation of a name than any structure of stone or bronze, or even any institution for charity or relief. It is not an experiment, it is carrying forward a highly successful work for bettering boys—a measure of justice—giving a body of interested citizens who have labored faithfully for almost fifty years, to

GIVE BOYS A CHANCE!

Very respectfully submitted,

CHARLES A. MURDOCK,
President.

Berry-Picking Float in Boys' Week Parade

Forty-sixth Annual Report

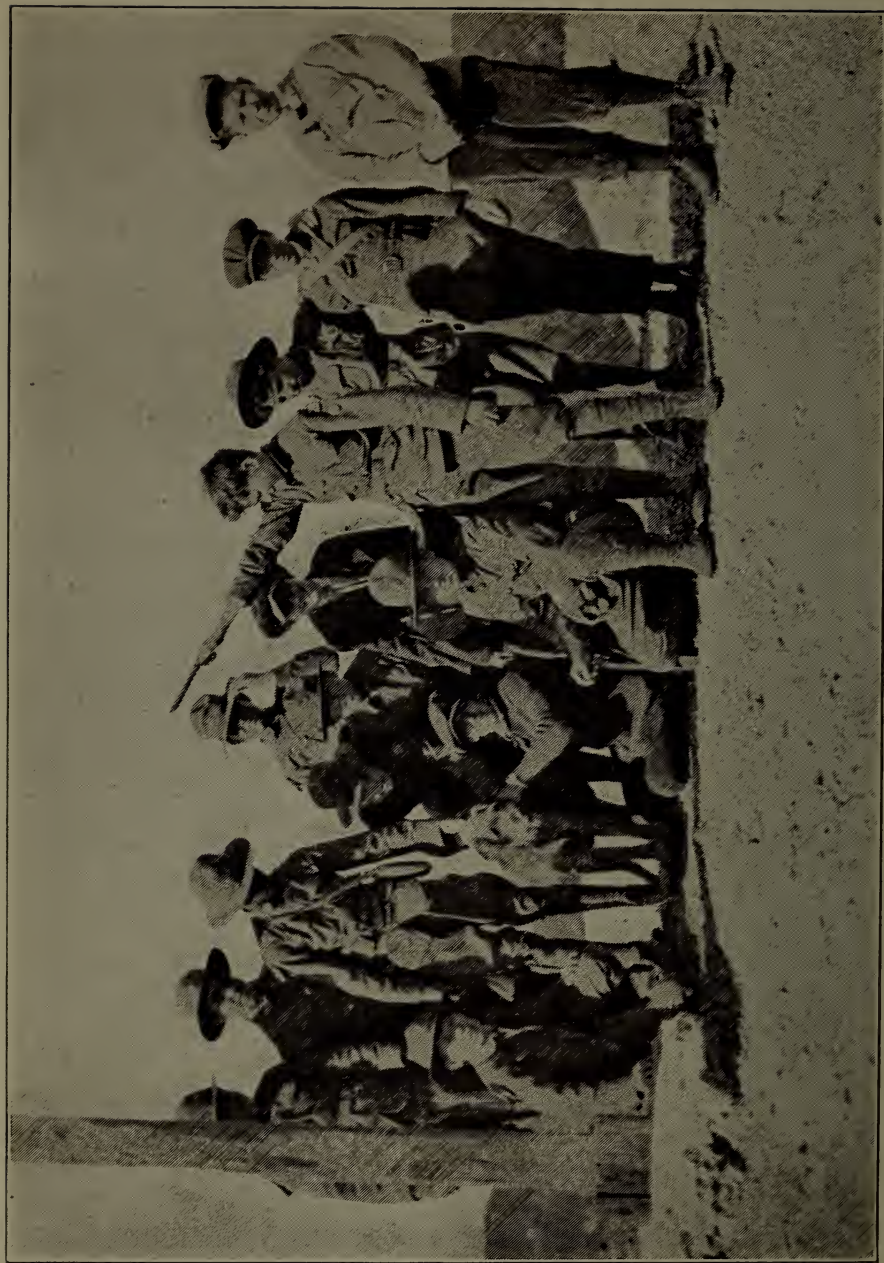

SUPERINTENDENT'S REPORT

SAN FRANCISCO, Dec. 31, 1920.

The Members and Trustees of the Boys Aid Society—

LADIES AND GENTLEMEN: Early in the year we changed the name of our Society to conform with the facts, not having had any girls in our care for eighteen years. Thus far we have experienced no confusion or ill effects from this change, but on the contrary the year 1920 has seen a widening and deepening of our influence in the community and an increasing number of appeals from counties outside of San Francisco for the care of their boys, appeals which we have granted as far as possible and consistent with the proper care and training of San Francisco boys, for whose care the Society was organized in 1874. Furthermore, our support comes very largely from the charitably inclined citizens of San Francisco, a roll of honor of whom will be found at the conclusion of this report. We are grateful to each one of our members and subscribers for their support year after year, some of them for many years past, and feel that they are entitled to an account of our stewardship, for, in the last analysis the Trustees and Officers of the Society are stewards of the funds, public and private, intrusted to their care for the training of neglected and needy boys.

The year 1920 has been marked by a better spirit among our wards than we have ever noticed in the past.

Troop 29, Boy Scouts, on Top of Twin Peaks

Forty-sixth Annual Report

This is remarkable because of the fact that boys are admitted only by commitment by the Judge of a Juvenile Court or on the written recommendation of a Probation Officer, who has investigated and ascertained that the need for special training and discipline is great enough to warrant sending the boy to us. This changed attitude of the boys and improved spirit among them is due to improved conditions, especially to the fact that during the past year it has been possible to serve a greater variety of food and add considerably to the quality of it.

DIETARY AND COST

Today our wards are better fed than at any time in the past. This has meant a large increase in our expenses for food supplies, the total for the year being \$22,493.49, an increase of \$3,227.25 over the expenditure for 1919.

The advancing cost of food supplies is indicated by the following statement:

Per capita per diem for food—

1916	20c
1917	25c
1918	29c
1919	34c
1920	37c

This improvement in the boys' dietary has been possible by reason of the increased rate of county payment which has been in effect since July, 1919, which has enabled us to do more for our wards in every way.

Boys Aid Society

Another interesting feature of the Treasurer's report is the increased amount received from parents in accordance with that provision of the Juvenile Court Law permitting Judges to order parents or guardians to pay for the care of a minor up to the cost of maintenance in home or agency receiving the child. The amount so received plus the amount paid by boys for their board in the Chas. R. Bishop Annex amounts to \$11,713.59, more than half the amount received from counties under the same section of the Juvenile Court Law.

To have established the responsibility of parents for the care and education of their offspring, even when delinquent or wayward, is a forward step in the care of children. Too many parents are evading this responsibility and securing the admission of their children to Orphanages and Children's Homes to be supported from public funds.

While the receipts from membership fees and subscriptions shows a falling off when compared with last year's receipts from the same source, there is an increase from other sources, and the financial condition at the end of the year is more favorable than at the end of the year 1919.

THE PHYSICAL CARE

of our wards is of first importance and is under the direction of Dr. Armstrong Taylor and Dr. Maurice Heppner, and begins with a thorough going over on ad-

Forty-sixth Annual Report

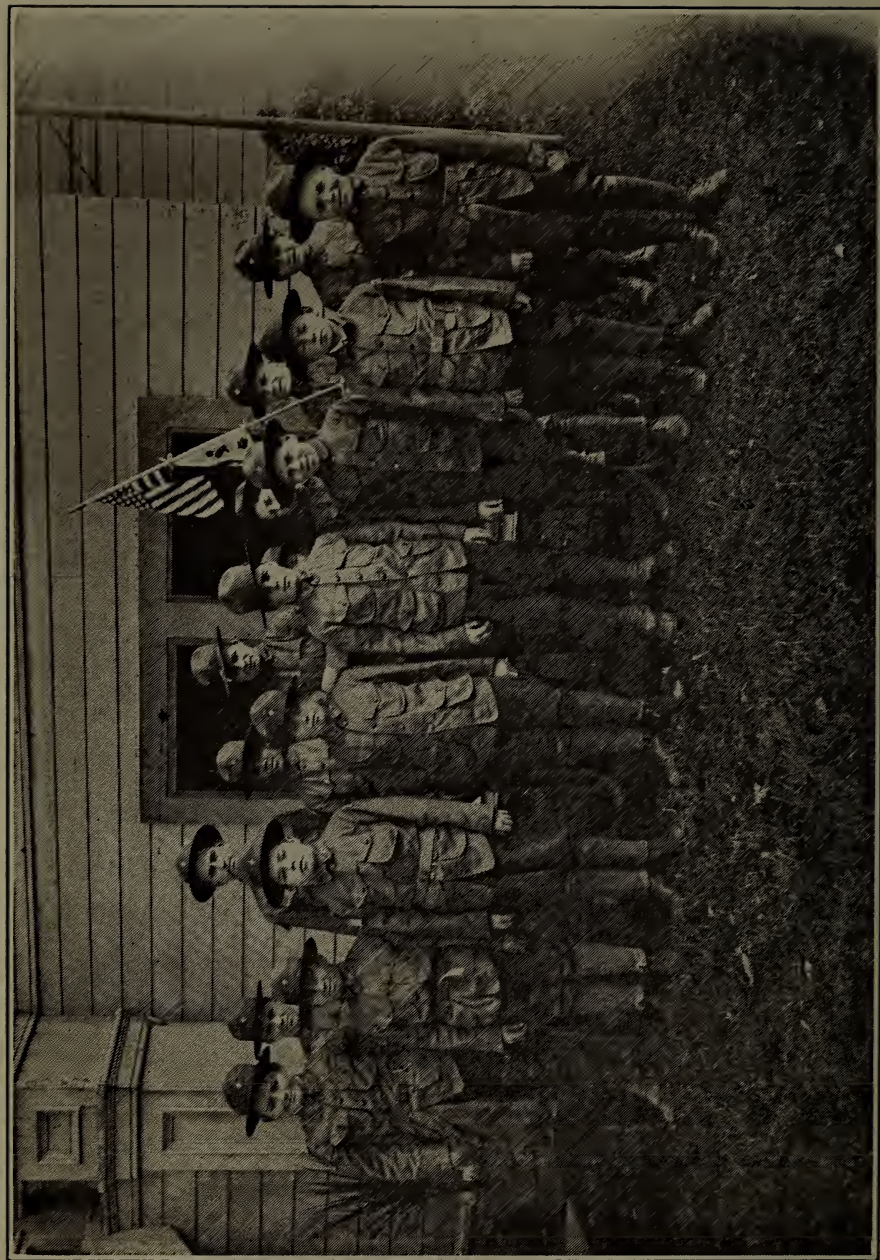

mission and a record of all the facts noted, which becomes a part of the boy's record. If tonsilectomy is indicated, or any other operative work, the case is sent to the Stanford Clinic and either operated there or at the San Francisco Hospital. The general health of our wards has been excellent, though while at camp we had two serious cases of illness, one of which involved the removal of a ruptured appendix. The boy recovered and was later sent to relatives in Massachusetts.

In October we discovered that we had a number of diphtheria carriers in the Home and found it necessary to segregate them for some weeks until they had been cleared of the germs.

The dental care of our wards is under the University of California Dental College, where they are taken in groups and their work done by senior students under the direction of instructors. The teeth are examined at the home by a dentist and a chart made of each case for the guidance of the student, who handles his case until the work is complete.

THE JESSE W. LILIENTHAL SCHOOL

was conducted along the most approved lines with Miss Annette M. Levy in charge and a fine corps of teachers. In spite of the fragmentary character of the work, due to new boys coming in at irregular intervals, many boys were promoted, some transferred to other schools, and eight boys graduated in June, several of whom are at-

Good Scouts

Forty-sixth Annual Report

tending the High School of Commerce and Polytechnic. The graduation exercises were a notable occasion and two members of the School Board favored us with their presence, Dr. D'Ancona presenting the diplomas.

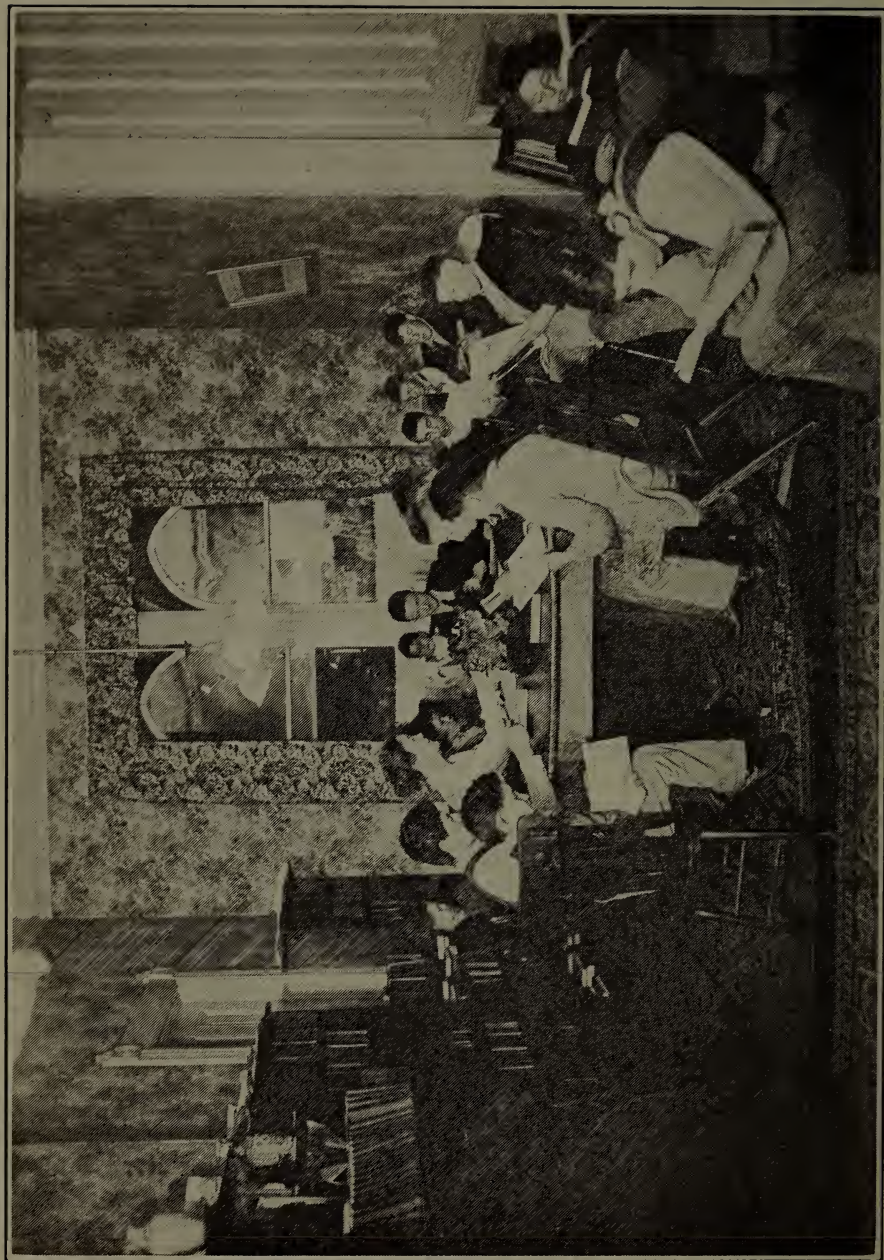

The Manual Training Departments made a creditable exhibit of woodwork and basketry, which testified to the thorough and conscientious work being done and the real interest shown by the boys in their work.

Through the school we are connected with the Public Schools Athletic League and our teams compete with teams from other grammar schools, with great benefit to the boys, who thus keep the contact with other school boys. The Soccer Ball Team won every game they played, but lost the trophy on a technicality, and the Baseball Team captured a district cup and were awarded the Spaulding Trophy, a fact of which they were justly proud.

SCOUT TROOP NO. 29,

under the leadership of Mr. Frederick H. Morley, has been an ever-growing influence for good among the younger boys and its value is hard to over-estimate. Scouting stands for high ideals of personal life and for loyalty to God and country and inculcates a spirit of helpfulness.

The Scout activities appeal to the boys and there are always applicants for admission. Meetings have been held regularly and many splendid hikes have been en-

Our New Library

Forty-sixth Annual Report

joyed by the members during the past year. The troop is especially fortunate in having as Scout Master a man of Mr. Morley's type, and one who can give so generously of his time to the work.

The troop was represented at the Boy Scouts annual meeting and dinner by a group of members, who enjoyed the evening and brought back reports to the others.

The entire troop participated in the Thank You Parade of March 30th last with an attendance of 100 per cent, and fully uniformed. Their marching was pronounced perfect by the army officers who reviewed the troops as they passed and the troop was awarded the first prize—a week-end visit to Senator Phelan's home at Saratoga, and a silver cup commemorating the event.

THE LIBRARY,

made possible by the Board of Trustees of the Public Library, is one of the refining and uplifting influences in the home. The reading room is open every afternoon and evening to the boys and is always well filled with boys intent on their reading. A few well-selected sets of reference books are used frequently by the boys in connection with their school work.

The magazine table is supplied with twenty-four carefully selected magazines which come regularly and are eagerly sought by the boys. If a taste for good reading can be developed in a boy—and we are doing it for many

Boys Aid Society

boys—the boy is fortified against idleness and evil influences.

EVENING PROGRAMS

A schedule of evening programs of a recreational and instructive character is carried on continuously, and plays an important part in the all-round training of the boy. Singing of popular and sacred music under leadership occupies two evenings a week. We are indebted to Miss Estelle Kane, who has so long acted as our accompanist and taken a very deep interest in the boys and their welfare, and to Mrs. McCauley, who assisted us in the same way.

Two evenings a week are devoted to motion picture programs, for which we are indebted to the Motion Picture Exchanges, who furnish the pictures as their contribution to the work. Other evenings we use the stereopticon and some of our collection of slides.

Sunday evening is devoted to a religious service in which all participate and which is usually conducted by the superintendent, who endeavors to make religion a very real and practical thing and one connected vitally with the every-day life of each boy.

RELIGIOUS TEACHING

is given in denominational groups on Tuesday evening, and is in charge of those appointed for the purpose. Mr. W. J. Wallace assists Rev. Father Barron in the instruction of the Catholic boys, and Rev. J. E. Squires is most

Forty-sixth Annual Report

faithful in looking after the Protestant boys. In this way every side of the boy's nature—mental, physical and spiritual—is receiving proper training and development.

The Boys' Work Committee of the Rotary Club, of which Mr. Frank I. Turner was chairman, gave a series of very helpful evenings of music, serious, helpful talks and considerable fun mixed in, and the Club as a whole entertained the boys at the Kiddies' Day at the Orpheum, when seventy-five of our boys were their guests.

THE HOLIDAYS

Thanksgiving was observed as a holiday, many boys going out to dinner with relatives and friends. Another large group, the members of Troop 29, were the guests of Mr. and Mrs. Frederick H. Morley at a downtown restaurant, and about fifty enjoyed a bountiful dinner at the Home, the turkeys being the gift of our good friend, Mr. E. Cerf, and the dessert the gift of other friends.

The week preceding Christmas was our vacation period and was filled with good things for the boys, including the staging of a cantata, "The Tables Turned," sung by the boys under the direction of Mr. Backofen, with Miss Faustina Spadoni at the piano, which received the following from Mr. Redfern Mason in the *Examiner*:

"A small thing done by yourself does you more good than a big thing which somebody else does for you. The lads of the Boys Aid on Baker Street know that. They

Part of Exhibit at Social Workers' Conference

Forty-sixth Annual Report

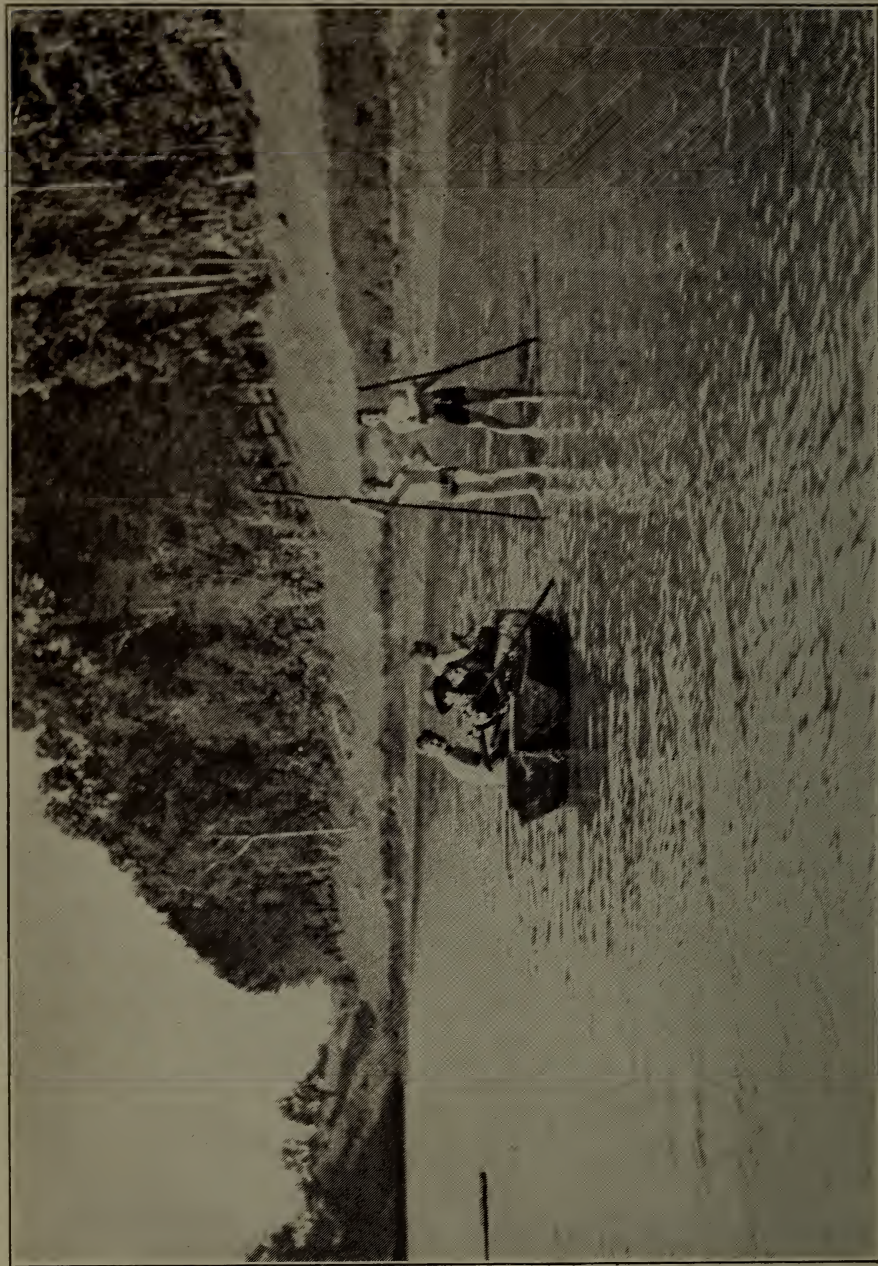

gave an entertainment on Wednesday night and it gave me more pleasure than I have had in many a far more pretentious affair.

There was something of the same spirit in it that I felt among the doughboys in France and Germany. Entertainers from outside were well enough; but what they loved best of all was for their own fellows to get up and sing or play the banjo or tell stories—regular club stunts among pals.

The show was a sort of Father Christmas turned upside down. The old man has been bringing gifts to the kiddies for centuries, but nobody has ever given him a Christmas. So all the children of the world plan together to give him a treat. But, as he sits waiting for them to come, it dawns on him that the joy of Christmas is in giving.

Mr. Bachofen, one of the kindly spirits of the school, directed the performance, and Miss Faustina Spadoni, teacher by the grace of God, played the piano, and one of the lads fiddled. Father Christmas was Hobbes, which, by the way, is the name of a great philosopher. But this Hobbes was different. He played Father Christmas in a South of Market voice, and that, it seems to me, was well enough, for the old man is the saint of the poor.

And there was "Possum." His real name is Oliver, and he is a real watermelon darkey. He was to jump out of the Christmas sack and embrace Father Christmas.

Troop 29, Boy Scouts, at Camp Lilienthal

Forty-sixth Annual Report

But the old man thought the boys would laugh; so they dressed Oliver up in a tiger hide and he was the representative of Africa in the march of the nations.. The White Cat objected that cats don't sing; but was rebuked with the assurance that all well-trained cats do sing.

I believe that if the lads at the Boys Aid could be giving shows like that of Wednesday all the year round, it would go far toward making good citizens of them. For play is education, too."

Then there was a Christmas tree lighted with candles and with a gift for each boy and a bag of candy.

Besides these there were shows at the Coliseum Theater, where we were the guests of the Boy Scouts of that district, and at the Alcazar as guests of the Union League Club. A visit to the battleship Texas for 40 boys, who were entertained at dinner, a turkey dinner for all who remained at home, and a generous box of good "eats" from the Boys' Work Committee of the Rotary Club.

Among the pleasant evenings during the year were the Lincoln day and Washington's birthday exercises, two interesting lectures, illustrated, by Dr. George Wharton James, "What Horses and Dogs Did to Help Win the War," and "Wild Animals I Have Known," a lecture by Chaplain Kendall on the iron and steel industry, and a very delightful musical program by Mrs. E. W. Tillson and Miss Hibben.

Russian River Redwoods

Forty-sixth Annual Report

THE HONOR SYSTEM

loses none of its influence on the boys, but continues to hold them up to a high standard of manliness. The Honor Company is continuously being filled up from the ranks of new-comers, as the older members are dismissed or go into the Annex.

This is done on the nomination of the Superintendent and by the vote of the members, a two-thirds vote being required to elect.

Sunday leaves of absence to go out without supervision are granted on the conduct record of the preceding week and the percentage of failure to return was a trifle over half of one per cent of 3262 leaves of absence granted during the year.

The Chas. R. Bishop Annex is the graduate department and is the goal aimed at by many of the older boys who aspire to getting a job and boarding in the Annex. These working boarders or employed boys go to and from their work daily and enjoy a greater degree of freedom than do the others and from the date of their admission to the Annex become largely self-supporting. We endeavor to locate the boys where they will learn a trade or business calling, and help them through the difficult period when a boy's wages are inadequate for his support.

Under the splendid management of Mr. Albert Hite, our Assistant Superintendent, and his wife, with the as-

Boys Aid Society

sistance of Mrs. Nettie Pelton, the Annex has become more of a real home than ever, and the boys feel at home, many preferring to remain in when they might go out. The game room is bright and attractive and is in constant use when there are any boys in the house, and in the dining room meals are served which appeal to the boy.

Every boy is encouraged to save his money and start a bank account, so that when dismissed he will have money to fall back on if necessary. Some attend night school and others part time schools during the day.

Thus boys are tried out gradually and given more freedom of action and added responsibility, and thus prepared for the time when they may be dismissed and thrown on their own resources.

The attention of the reader is called to the table of expenses and income for the Annex for the past year, which seems to us a fine showing in view of the fact that the rate for board is a sliding scale, proportioned to each boy's wages and allowing ample for his other expenses and permitting of his banking part of his income. Several of our Annex family have good-sized bank accounts to show for a year's work.

CAMP PERKINS

was again the scene of our summer outing and headquarters for the berry picking, the camp being built early in June and closed on September 3rd after the most successful season financially that we have ever known, and one

Forty-sixth Annual Report

of the best as to the attitude and conduct of the boys, who were more contented and happier than any group since the summer of 1909. The crop of berries was not as large or as heavy as it sometimes is, but the rates for picking were uniformly higher throughout the season and the total earnings and earnings per boy higher than ever.

The summer's work may be summarized as follows:

RECAPITULATION OF CAMP OF 1920

Berries picked by the boys:

Mammoths—36,312 trays at 9, 10 and 11c per tray.

Lawtons—60,830 trays at 10, 12 and 15c per tray.

Total—97,142 trays, or about 242 tons.

Amount earned by boys as follows:

Berry picking\$ 9,322.02

Prunes picked (18,695 buckets at 5½c per bucket).. 1,028.19

Labor and helpers, etc..... 443.07

Total earnings credited to boys.....\$10,793.28

Amount paid for oversight..... 347.00

Total gross earnings including oversight.....\$11,140.28

Total net earnings due the boys.....\$ 6,538.78

Amount paid by boys for camp expenses..... 4,254.50

Total\$10,793.28

Cost of food (for camp season, 79 days only)..... 5,949.94

Average per day for food only..... 75.32

Average per capita per day for food only..... .56

Up-to-Date School Room

Forty-sixth Annual Report

Average amount paid by boys per day.....	.40
Average gross earnings per boy.....	80.84
Average daily earnings per boy.....	1.28
Average net earning per boy.....	49.24
Best individual gross earning.....	220.30
Best individual net earning.....	181.84
Second individual gross earning.....	147.84
Second individual net earning.....	109.34
Third individual gross earning.....	143.53
Third individual net earning.....	105.03
Average attendance at the camp.....	133.5
Total days at camp.....	79
Total working days.....	63

The distribution of this large sum of money was made on the basis of crediting each boy with his exact earnings daily and making a charge for camp expenses proportional to his ability to pay and aggregating less than the cost of the food supplies.

On our return from camp each boy was permitted and helped to use his net earnings as he desired, many purchasing neat outfits of clothing, shoes, etc., and some putting part of their earnings in the bank, one little fellow remarking, "Two years ago I came here broke—today I am opening a bank account."

The fact that all of the berry picking is done at a certain rate per tray and that each boy is credited with just what he picks, gives value to the work as a character-building process, for the normal motives of self-interest, pride and ambition to excel spur the boy on to continued

Boys Aid Society

exertion. Weekly, almost daily, they watch their accounts grow and mount up and keep a sharp eye on the other fellow's growing account to see that he does not pass them.

But berry picking is not the only activity at camp for much time is given to recreation, athletics, baseball and swimming.

The baseball nines have frequent games in the long evenings after an early dinner and work up quite a rivalry, and during June the track suits are donned by all who expect to compete on the Fourth of July, when a program of athletic events is run off. Much enjoyment is obtained in the training and a great deal of pleasure from the contests on the Fourth.

The evening of the Fourth is devoted to a patriotic program, including an address, which is listened to with interest by all. Last summer the speaker was Mr. Albert Ehrgott, who gave a fine inspiring talk, arousing great enthusiasm in his hearers.

Frequent trips to the swimming hole are part of the program each week and afford an opportunity for all to learn the art of swimming.

On Saturday afternoons the Tent Company having the best conduct record goes with the Superintendent to the Russian River for the afternoon. After several hours of swimming, supper is served on the sands to a bunch of boys hungry after the exercise, and we all return to the

Forty-sixth Annual Report

camp in the twilight. This little weekly treat makes the Tent Companies almost self-governing, for the night watchman's chief duty is to keep a record of the conduct of the boys in each tent. We are indebted to Mr. J. W. Keegan for the privilege of using the river at Mirabel Park, which is the point on the river nearest to our camp, a privilege which every one of us appreciates, for the grown-ups enjoy the river as much as the boys do.

One of the delightful features of the camp is the weekly camp-fire about which the boys gather and sing and linger until the fire has burned down to embers.

Sunday is a day of rest and recreation, with music, piano and phonograph, magazines and Sunday papers and letter writing, which is insisted on on Sunday and, of course, permitted at other times during the week. The weekly sale of candy comes Sunday afternoon following a bath and clean clothing donned by all. A special Sunday dinner with ice cream on alternate Sundays is enjoyed and in the evening we gather in our open-air meeting-place for an evening service of song and listen to kindly, helpful addresses by speakers who come because of their interest in the boys. I am especially indebted to Rev. Mr. Naylor of Sebastopol, also to Rev. Mr. Conoway for their interest and assistance last summer.

The need for and value of work for boys was impressed upon the community during Boys' Week in San Fran-

Boys Aid Society

cisco in October as never before. The parade, in which our Society was represented by a float depicting the berry picking and by Troop 29, attracted especial attention and received much favorable comment.

A renewed interest has been manifested in all boy activities as a result of that effort and it is well, for the boys of any city are its chief asset.

That this Society is saving many boys for useful citizenship is shown by our records, and justifies the expenditure of time and money in their behalf. Wherever I go I meet young men who have been benefited by their stay here and scarcely a week passes but one comes in to renew old associations and incidentally to renew my faith in boyhood.

With gratitude to all who have contributed to the successful work of the past year, the Trustees who have so loyally supported the work, my associates who by their fidelity to high ideals of duty have made success possible, and especially to the Source of all strength and help, I close this report.

Respectfully submitted,

GEO. C. TURNER,
Superintendent.

Forty-sixth Annual Report

STATISTICAL

MOVEMENT OF POPULATION FOR THE YEAR ENDING DECEMBER 31, 1920

Number in the Home in January 1, 1920..... 118

Committed—

New 119

Readmitted 17 136

From Parents and Relatives—

United Artists	Fox Film

Boys Aid Society

REPORT OF CERTIFIED ACCOUNTANT

San Francisco, Feb. 21, 1921.

To the President and Board of Directors of the Boys Aid Society, San Francisco, Cal.

GENTLEMEN :—

Agreeable to your request, we have audited the books and accounts of the Boys Aid Society for the calendar year 1920, and are pleased to state that we found everything in the most perfect order.

All moneys received, as per available data, have been properly accounted for, and all Disbursements duly approved by your Committee and substantiated by proper Vouchers and Warrants.

The Statements of Receipts and Disbursements for the calendar year 1920, and Statements of Assets and Liabilities as of December 31st, 1920, as submitted to you by your Treasurer, are true and correct and correspond with Ledger Balances.

We attach certified Statement of the latter, and remain,

Respectfully yours,

WENZELBURGER & SHIPLEY.

By A. Wenzelburger.

Forty-sixth Annual Report

FORM OF BEQUEST

“I bequeath.....dollars to the Boys
AID SOCIETY, a corporation, located at the City and
County of San Francisco.”

NOTE.—No charitable bequest is valid in California unless made
at least thirty days before the testator's death.

LAST WILLS AND TESTAMENTS

Members of the Bar are earnestly requested to consider this Society when engaged in preparing wills for any of their clients who are inclined to make bequests for the benefit of Charitable Institutions.
